RECOVER FROM
BROKEN NECKS
SALT LAKE GIRL
STILL MISSING

Two Cases in Salt Lake Hospitals Cause Doctors To Marvel

SALT LAKE, Nov. 10.—Physicians of Salt Lake are marveling over the apparent recovery of two men in the Holy Cross hospital from broken necks. The men are Fred P. Nelson, 678 Third avenue, past exalted ruler of the local Elks lodge and secretary-treasurer of the Utah Bedding and Manufacturing company, and Bert Christensen of Pioche.

The manner in which Mr. Nelson suffered injury is a mystery. His last recollection previous to being hurt was that he was crossing Main street, from west to east, near the Pioneer monument at South Temple street, about midnight Monday, October 25. His next clear realization was that he could not get out of bed next morning—though circumstances point to his having arrived home alone and gone to bed without assistance.

In the case of Mr. Christensen, a railroad man, a fall occasioned his injury. He was brought from Pioche several days after the accident. In the case of each man, the second cervical vertebra is fractured, according to the attending surgeon of each patient. Both men are conscious and improving. Mr. Nelson was able to sit in a wheel chair for a short time yesterday. His physician is confident of entire recovery, though the vertebra was fractured through the arch into the spinal canal.

GOVERNOR ELECT PAID
HONOR BY NEIGHBORS

BOUNTIFUL, Nov. 10.—All Bountiful paid respects to Charles R. Mabey, the next governor of Utah, last night in front of the Bountiful drug store. Although noisy, the mass of humanity including the leading citizens of the town, were decorous and no incident occurred to mar the features of the festivities.

The board furnished music throughout the evening, and a bonfire, replenished as often as necessary, spread light and warmth over a large area. It had been planned to have a speaking program, but the din from nearby every variety of noise-producing device hindered to human ingenuity was too much for the orators, and instead the evening much of the night was devoted to a free-for-all frolic and dance, the dancers choosing the smooth cement pavement for their evolutions.

Governor-elect and Mrs. Mabey were central figures in the festivities, and many were the congratulations and good wishes bestowed upon them by their townsmen and hundreds from other parts of Davis county.

WOOLGROWERS TO SEEK
PROTECTIVE TARIFF

SALT LAKE, Nov. 10.—Plans for the future of the sheep industry in the intermountain country with reference to present business conditions and tariff matters were discussed at a meeting of representatives from woolgrowers' associations held in the offices of the National Woolgrowers' association yesterday.

Professor F. R. Marshall, secretary of the national association, read a report on the recent meeting of farm bureau officials, which he attended in Chicago. While no definite decisions were reached, the woolgrowers are determined to ask for a protective tariff on wool importations to seek relief from the flooding of American markets with foreign wool.

WASHINGTON MAN TALKS
TO VOCATIONAL BOARD

SALT LAKE, Nov. 10.—Elaborating the idea that in cooperation lies the first rule and vital principle for progressive life, Arthur E. Holder of Washington addressed the third session of the conference of directors of the federal board of vocational education, now being held at the Hotel Utah. Mr. Holder will speak tonight at Barrett Hall at the only public session of the conference. His address will be "General Welfare Through Broad Education."

Government Operatives Become Interested in Her Disappearance

RENO, Nev., Nov. 10.—Mystery continues to shroud the whereabouts of Miss Amelia Holmes, who left a Western Pacific passenger train at Kamas, ten miles east of Battle Mountain, last Wednesday night, and disappeared. Bloodhounds set on the trail of the woman could not pick up the scent.

Government operatives have interested themselves in the case, and are acting on the theory, it is said, that white slavers may have taken the girl into their custody. Fifty men from Battle Mountain, under the direction of a deputy sheriff, covered a twenty-five mile square of territory looking for the girl. Light snows prevented following of the girl's trail, which led towards Winnemucca. She is believed to have met some one after leaving the train.

Miss Holmes was 25 years of age and had been visiting with her cousin, Ida and Alma Bergstrom, of Oakland, Cal.

Idaho Denied Change
In Time by I. C. C.

WASHINGTON, Nov. 10.—The petition of the Idaho public utilities commission asking that standard mountain time be prescribed for use on the Oregon Short Line railroad in Idaho at all points east of Huntington was denied yesterday by the interstate commerce commission.

In short, it refused to place south Idaho on mountain time, and adhered to its original order fixing the dividing line between mountain and Pacific time at Pocatello, and south to Utah, along the Oregon Short Line.

The commission feels that inasmuch as Congress itself repealed the daylight saving law, and directed the commission to establish time zones "having regard for the convenience of commerce and existing junction and division points of common carriers," it cannot consistently change the line originally established.

To comply with the Idaho request, would, in the opinion of the commission, virtually apply daylight saving time to all southern Idaho and at the same time necessitate moving the line now in Utah west to some point in Nevada in order to preserve a reasonable alignment.

The commission points out that Pacific time at Boise is about fifteen minutes slow with sun time, and to place Boise on mountain time would make it forty-five minutes fast with sun time.

At Weiser and Huntington, the situation would be even worse, all things considered. The commission holds that the change requested by the Idaho commission is not justified.

FUNERAL TOMORROW
FOR SALT LAKE NURSE

SALT LAKE, Nov. 10.—Preliminary examination of the stomach of Miss Frances Korosus, nurse, whose body was found in Liberty park lake last Saturday, three weeks after her disappearance, revealed that it had been almost empty of food and showed no sign of having received water for some time prior to death. Tests made by State Chemist Herman H. Harris. An examination will now be made to determine whether there was poison in the stomach.

Funeral services for Miss Korosus will be held tomorrow afternoon at 1 o'clock in the Quailtrough-Albert funeral chapel.

OIL MAN ARRESTED

POCATELLO, Ida., Nov. 10.—Glenn Masterson, service station superintendent for the past year for the Continental Oil company, was placed under arrest here yesterday for an alleged shortage of \$1260.82 in his books. The complaint was filed by G. A. Aranta, manager of the local branch. Mr. Masterson states that during the month of July \$860 was taken from his room of vocational education, now being held at the Hotel Utah.

Mr. Holder will speak tonight at Barrett Hall at the only public session of the conference. His address will be "General Welfare Through Broad Education."

Record set up by Brigham Sugar Plant

BRIGHAM, Ida., Nov. 10.—A new record has been established by the Brigham City sugar factory in the contest in which Utah-Idaho sugar factories competing for \$9,000 for the best record of the year.

On Friday of last week, the local plant turned out 2485 bags of sugar in the twenty-four hour period, and in the twenty-five hour period ground 3055 tons of beets. The factory has a constructed capacity of 500 tons of beets per twenty-four hours. During a portion of the night, 100 bags of sugar were taken away from the hoppers every hour.

To date, the mill has ground approximately 25,000 tons of beets during the operating period of five weeks. Indications are that farmers will have all their beets up before the ground is frozen.

NON-PARTISANS LOSE OUT

BOISE, Ida., Nov. 10.—Republicans elected a total of ninety-three members of the 1921, or sixteenth, legislature at the general election held last Tuesday divided as follows: Senators, forty-one, representatives, fifty-two. The total membership of the legislature is ninety-eight.

The Democrats elected only five members, three senators and two representatives. They have a chance to gain one more, a senator in Adams county, where the count is so close between Senator Lowe, Republican, and D. W. Canhoosen, Democrat, as to require an official tabulation. It will be made Tuesday by the county commissioners, sitting as the official election board.

There will not be a Non-Partisan with that title seated in either house. J. Lee Read, elected as a Democrat, is however, a Non-Partisan. The league expected to elect at least fifteen members in the two houses.

Its inventor has patented an artificial Christmas tree made of wood, which can be taken apart and stored compactly from year to year.

IMPERIAL DIET OF JAPAN TO TOUR AMERICAN CITIES (By International News Service)

TOKIO, Japan, Nov. 10.—Tours of the chief American cities by members of the imperial diet of Japan and the municipal assembly of Tokio seem probable at the present time. The proposition has been discussed by the members of the diet for some time and if the trip is made it will be during the spring months of 1927. The diet members plan to take their wives on the trip.

Mr. Terada, chief secretary of the diet, said, regarding the trip: "The question of a trip to America has been discussed before the congressional party came to Tokio. But the scarcity of steamer accommodations blocked the plans and we could not contrive a troop ship like the Americans did. The Tokio city assembly is reported to be in India as largely used."

No word is so largely used by Him as planning a trip, and if they decide to go they can make their own appropriations for the expense. Numerous members of the controlling political party are said to be in favor of the plan."

Declares He Would Not Take All the Money in the World For the Good Tanlac Did Him, and Will Tell Anyone About His Case.

"My telephone number is Proctor 3115, and if anybody wants to talk to me about the good Tanlac has done me and what I think of it, all they have to do is to just call me up." declared K. C. Russell, 3712 North Ninth street, Tacoma, Wash.

"Six bottles of Tanlac not only completely relieved me of all my troubles but I have gained fifteen pounds in weight besides. For three years I had just about everything the matter with me anybody could have. I lost my appetite, and even when I did force down a little something, it caused me awful suffering. I would bloat up with gas until I could hardly breathe, have intense pain in the pit of my stomach, and my heart would palpitate dreadfully. I had headaches nearly all the time and often became so dizzy I had to take hold of something to keep from falling. My kidneys worked me a great deal, and there were such pains in my back I felt it was coming in two."

"I also suffered with rheumatism in my arms, legs and every point in my body. My nerves were a such bad shape I could never get a good night's sleep. I lost weight, and finally became so run-down and weak I simply had to stop work entirely. All my friends thought I was down and out for good for although I had tried every kind of medicine I could hear of, nothing helped me a particle."

"Well, sir, I think Tanlac is actually worth its weight in gold, and I wouldn't take all the money in the world for the good it has done me. In a short while after I began taking it I commenced to get better and now I am a well man. I have a splendid appetite, eat anything I want and now we have a particle of trouble afterward. My kidneys do not bother me any more, my nerves are in fine shape, I never have a sign of headache, nor become dizzy, and the rheumatism has left me entirely, and I am back on the job again."

Tanlac is sold in Ogden by A. R. McIntyre Drug Co. Two busy stores—Adv.
